“My programs can be taught to groups or individuals, depending on the need.”

I believe that champions are not only the ones who come in first, but also those who achieve their goals, regardless of the level. Experience has proven that personal instruction and targeted, small group clinics are instrumental in developing skill levels and confidence, and has often been the deciding factor in the careers of successful athletes.

Over the last 25 years, I have been fortunate to work under the world's finest coaches and National team staff. The knowledge and experience I have gained enables me to offer a wide variety of topics that are of benefit to athletes and coaches. My intention is not to replace existing instruction, but to augment the instruction each athlete already receives. I am fully prepared to customize each session to meet the specific needs of each athlete.
